

ALERT!! Save your Solar System

August 4, 201

HOW?

- **Do not spill or waste your genetic energy, do not masturbate**
- **Inform people through every possible way of what must be done in the face of this catastrophic danger...**

Do what we say in the following text from your Houses, from the Fountains, from your Homes.

Locate from each of your countries in which direction the Temple is located; locate from your homes the cardinal point that is directed towards the Temple. Remember that the Temple is located between the districts called South of Santander and Boyaca.

Once you have established the direction of the Temple, it is necessary to move the Bed where you sleep in such a way that your head, when you are lying down, will have its coronary chakra (located on the top of the head) looking towards the Temple.

For example, if you are in the Republic of El Salvador, which is located to the North East of Colombia, this means that the brothers of El Salvador will have the head of their beds and the beds themselves, directed towards the South East and inclined towards the North with great precision.

This is so that you, who is an Electrical Plant that Generates Energy, may send energy through your Coronary Chakra an amount of energy that is needed in the Temple in great quantities; and those of you who can do it from this moment on, even better.

It is necessary that you do a Hand Stand 3 times a day, making a Mutation 7 times, that is, making your energy ascend 7 times. After this, the following Mantra should be pronounced 66 times:

SAUDON ELIOVHEVED DIVUIJADAV KEPTON JAVED AIRSTAK

Note that the letter "J", in the Mantras, has to be pronounced as "H". After this, in your house, get into the Primidal Geotropik Rune for a lapse of one minute; this should be done 3 times a day.

Perhaps in the next hours I will indicate what needs to be done in the Fountains. In this instant I will dedicate myself to give instructions for what must be done at the Temple.

VENERABLE HELOHIM WEORSSHAMADDIHAEL
